RE: The Ilada Waste Company, St.Clair County, Dupo, Illinois  
General Notice of Potential Liability and Request for  
Information

Dear Sir or Madam:

The United States Environmental Protection Agency (U.S. EPA) has documented the release or threatened release of hazardous substances, pollutants and contaminants at the above referenced facility (Site), and is planning to spend public funds to control and investigate these releases. This action will be taken by U.S. EPA pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §9601 et seq., (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, 100 Stat. 1613 (1986) (SARA), unless U.S. EPA determines that such action will be done properly by a responsible party. Responsible parties under CERCLA include the current and former owners and operators, and persons who generated the hazardous substances or were involved in transport, treatment, or disposal of them at the Site. Under Section 107(a) of CERCLA, 42 U.S.C. §9607(a), where the Agency uses public funds to achieve the cleanup of the hazardous substances, responsible parties are liable for all costs associated with the removal or remedial action and all other necessary costs incurred in cleaning up the Site, including investigation, planning and enforcement.

To address the dangers and threats to human health and the environment as quickly as possible, U.S. EPA has conducted or is currently planning to conduct the following actions at the above-referenced Site.

1. A Preliminary Assessment (PA) and Site Investigation (SI) was conducted during 1995, in order to gain a basic understanding of any risks posed by releases or threatened releases from the site to human health and the environment.
2. A Remedial Investigation (RI) to identify the Site characteristics and to define the nature and extent of soil, air, surface water, and groundwater contamination at the Site and the risks posed by the Site.
3. A Feasibility Study (FS) to evaluate different cleanup options for the Site.
4. Remedial Design and Remedial Action (RD/RA) to design and implement the selected and EPA approved cleanup action for the Site.

For additional information regarding the policy and guidance associated with conducting RI/FS studies see OSWER Directive (9355.3-01) Guidance for Conducting Remedial Investigations and Feasibility Studies (RI/FS) Under CERCLA, October 1988.

U.S. EPA has received information that you may have owned or operated or generated or transported hazardous substances that were disposed of at the Site. By this letter, U.S. EPA notifies you of your potential liability with regard to this matter and encourages you, as a Potentially Responsible Party (PRP), to reimburse U.S. EPA for costs incurred to date and to voluntarily perform or finance the response activities that U.S. EPA has determined or will determine are required at the Site. U.S. EPA is willing to discuss with you the entry of an appropriate administrative consent order under which you would perform or finance response activities and reimburse U.S. EPA for its costs. If a consent order cannot be promptly concluded, U.S. EPA may issue a unilateral order under Section 106 of CERCLA, requiring you to perform specified work. Under Sections 106 and 107 of CERCLA, you may be liable for reimbursement of U.S. EPA's costs, for statutory penalties, and for treble damages for noncompliance with such an order.

Enclosure 8 is a list of the names and addresses of other PRPs to whom this notification is being sent. Enclosure 9 is a list of PRPs who have previously received Special Notice Letters. This

list is provided to assist you in contacting other PRPs in this matter and to negotiate with U.S. EPA.

Enclosed is a U.S. EPA Small Business Regulatory Enforcement Fairness Act Information Sheet (Enclosure 7). The information sheet may be helpful, if you are subject to enforcement action by U.S. EPA and you are a qualified small business.

As a PRP, you should notify U.S. EPA in writing within ten (10) days of receipt of this letter of your willingness to perform or finance the activities described above. If U.S. EPA does not receive a timely response, U.S. EPA will assume that you do not wish to negotiate a resolution of your potential responsibility in connection with the Site and that you have declined any involvement in performing the response activities.

Your letter should indicate the appropriate name, address, and telephone number for further contact with you. If you are already involved in discussions with state or local authorities, engaged in voluntary cleanup action, or involved in a lawsuit regarding this Site, you should continue such activities as you see fit. This letter is not intended to advise you or direct you to restrict or discontinue any such activities; however, you are advised to report the status of those discussions or actions in your response to this letter and to provide a copy of your response to any other parties involved in those discussions or actions.

In addition, U.S. EPA is seeking to obtain certain other information from you pursuant to its authority under Section 104(e) of CERCLA, 42 U.S.C. §9604(e), for the purpose of enforcing CERCLA and to assist in determining the need for response to a release of hazardous substance(s) under CERCLA. The Administrator of the U.S. EPA has the authority to require any person who has or may have information relevant to any of the following to furnish U.S. EPA with such information:

- 1) the identification, nature, or quantity of materials which have been or are generated, treated, stored or disposed of at, or transported to, a facility;

- (2) the nature or extent of a release or threatened release of a hazardous substance, pollutant or contaminant at or from a facility; and

(3) the ability of a person to pay for or perform a cleanup. Enclosure 1 is a summary of the history of the Ilada Waste Company Site.

Pursuant to Section 104(e) of CERCLA, you are hereby requested to submit a response to this Information Request and its questions in Enclosure 2 concerning the Ilada Waste Company Site in St. Clair County, Dupon, Illinois. Instructions to guide you in the preparation of your response are in Enclosure 3. Definitions of the terms used in this Information Request and in the questions are in Enclosure 4.

This request is directed to your company, its officers, directors, and employees, and its subsidiaries, divisions, facilities and their officers, directors, and employees. The information sought herein must be sent to U.S. EPA within fourteen (14) calendar days of your receipt of this letter. Failure to respond fully and truthfully to this request, or to adequately justify any failure to respond, may result in an enforcement action against you by U.S. EPA under Section 104 of CERCLA, as amended.

The information requested herein must be provided notwithstanding its possible characterization as confidential information or trade secrets. You may request, however, that any such information be handled as confidential business information. A request for confidential treatment must be made when the information is provided, since any information not so identified will not be accorded this protection by the U.S. EPA. Information claimed as confidential will be handled in accordance with the provisions of 40 C.F.R. Part 2. To request that the Agency treat your information as confidential, you must follow the procedures outlined in Enclosure 5, including the requirement that you support your claim for confidentiality.

The written statements submitted pursuant to this request must be notarized and submitted under an authorized signature certifying that all information contained therein is true and accurate to the best of the signatory's knowledge and belief. Moreover, any documents submitted to U.S. EPA pursuant to this information request should be certified as true and authentic to the best of the signatory's knowledge and belief. Should the signatory find, at any time after the submittal of the requested information, that any portion of the submitted information is false, the signatory should so notify U.S. EPA. If any answer certified as

## ENCLOSURE 1

### SITE HISTORY ELEMENTS

1. The Ilada Waste Company Site is located in a rural area in southwestern St. Clair County, approximately one mile south of Dupu, Illinois at 1143 M Station Road. The site consists of a three acre parcel of land situated on a wooded hillside.
2. The area surrounding the site is characterized by two distinct geologic settings. The western half lies in the Mississippi River flood plain. The flood plain consists of about 100 to 200 feet of alluvial deposits. These overlook bedrock of the Lower Mississippian System, composed predominantly of limestone with interbedded layers of shale. To the east of the site the land rises to form a ridge with elevations of 100 to 200 feet above the flood plain. It is highly weathered and exhibits distinct karst characteristics. Between 30 and 70 feet of clayey loess deposits over bedrock of the Middle and Upper Mississippian Systems. This bedrock consists predominantly of limestone with interbedded layers of shale and sandstone.
3. Population in the area is predominantly rural and agricultural. Private groundwater wells are used to supply drinking water to rural residents near the Site. Most area residents are served by municipal drinking water supplies obtained from the Mississippi River.
4. Crude oil has been produced on-site since 1939. During oil production, a mixture of crude oil and brine was pumped from two on-site wells into one of a number of gunbarrel tanks. The oil and brine were separated in the gunbarrel tanks. The oil was sold locally as fuel oil; the brine was stored in one of five brine lagoons or in several storage tanks. Waste brine was disposed of into a 3,000 foot deep injection well. Waste oil was accepted on-site from approximately 1979 to 1982 and stored in above ground storage tanks. Some unprocessed waste oil was sold locally for use in road dust control; the remainder was either disposed of in the brine injection well or processed onsite, blended with crude oil and sold for fuel. The waste oil was processed in an on-site still by heating to separate water and sludge from the

oil. The separated water was disposed of in the injection well; the sludge was either disposed of in the injection wells or sold for road dust control.

There is a high potential for groundwater contamination due to past activities at this site. Polychlorinated bi-phenyl (PCB) contamination has been identified in water from pits and soils on the site. Soils in this area have relatively low permeabilities, but their thickness is not great. The weathered condition of the soils and bedrock increases the potential for groundwater contamination.

5. The Preliminary Assessment/Site Inspection phase of the project is essentially complete. In the 1980s and 1990s, the U.S. EPA and Illinois EPA issued reports relating to the preliminary assessment and inspection of the site.
6. This Information Request is being sent so that U.S. EPA may identify PRPs (i.e., current or former owners, operators, generators, and/or transporters) associated with the Site that may perform the Remedial Investigation/Feasibility Study portion of the project.

## ENCLOSURE 2

### QUESTIONS

1. Identify all persons consulted in the preparation of the answers to these Information Requests.
2. Identify all documents consulted, examined, or referred to in the preparation of the answers to these Requests, and provide copies of all such documents.
3. If you have reason to believe that there may be persons able to provide a more detailed or complete response to any Information Requests or who may be able to provide additional responsive documents, identify such persons.
4. List the EPA Identification Numbers of the Respondent.
5. Identify the acts or omissions of any person, other than your employees, contractors, or agents, that may have caused the release or threat of release of hazardous substances, pollutants, or contaminants, (e.g., solid, liquid) and damages resulting therefrom.
6. Identify all persons having knowledge or information about the generation, transportation, treatment, disposal or other handling of material at the Site.
7. Identify all persons, including yourself, who may have arranged for disposal or treatment, or arranged for transportation for disposal or treatment, of waste materials, including hazardous substances, at the Site. In addition, identify the following:
  - A) The persons with whom you or such persons made such arrangements;
  - B) Every date on which such arrangements took place;
  - C) For each transaction, the nature or the waste material or hazardous substance, including the chemical content, characteristics, physical state (e.g., solid, liquid), and the process for which the substance was used or the process which generated the substance;

- D) The owner of the waste materials or hazardous substances so accepted or transported;
- E) The quantity of the waste materials or hazardous substances involved (weight or volume) in each transaction and the total quantity for all transactions;
- F) All tests, analyses, and analytical results concerning the waste materials;
- G) The person(s) who selected the Site as the place to which the waste materials or hazardous substances were to be transported;
- H) The amount paid in connection with each transaction, the method of payment, and the identity of the person from whom payment was received;
- I) Where the person identified in g., above, intended to have such hazardous substances or waste materials transported and all evidence of this intent;
- J) Whether the waste materials or hazardous substances involved in each transaction were transshipped through, or were stored or held at, any intermediate site prior to final treatment or disposal;
- K) What was actually done to the waste materials or hazardous substances once they were brought to the Site;
- L) The final disposition of each of the waste materials or hazardous substances involved in such transactions;
- M) The measures taken by you to determine the actual methods, means, and site of treatment or disposal of the waste material and hazardous substance involved in each transaction;
- N) The type and number of containers in which the waste materials or hazardous substances were contained when they were accepted for transport, and subsequently until they were accepted for transport, and

subsequently until they were deposited at the Site, and all markings on such containers;

- O) The price paid for (i) transport, (ii) disposal, or (iii) both of each waste material and hazardous substance;
- P) All documents containing information responsive to a-o above, or in lieu of identification of all relevant documents, provide copies of all such documents; and
- Q) All persons with knowledge, information, or documents responsive to a-p above.

8. Identify all liability insurance policies held by Respondent from 1939 to the present. In identifying such policies, state the name

and address of each insurer and of the insured, the amount of coverage under each policy, the commencement and expiration dates for each policy whether or not the policy contains a "pollution exclusion" clause, and whether the policy covers or excludes sudden, nonsudden, or both types of accidents. In lieu of providing this information, you may submit complete copies of all relevant insurance policies.

9. Provide copies of all income tax returns sent to the Federal Internal Revenue Service for the period of operation.

10. If Respondent is/was a Corporation, respond to the following requests:

- 1. Provide a copy of the Articles of Incorporation and By-Laws of the Respondent.
- 2. Provide Respondent's financial statements for the past five fiscal years, including, but not limited to those filed with the Internal Revenue Service and Securities and Exchange Commission.
- 3. Identify all of the Respondents' current assets and liabilities and the persons who currently own or are responsible for such assets and liabilities.

4. Identify the Parent Corporation and all Subsidiaries of the Respondent.
11. If Respondent is a Partnership, provide copies of the Partnership Agreement.
12. If Respondent is a Trust, provide all relevant agreements and documents to support this claim.
13. Identify (as defined in Enclosure 4) all persons who have knowledge or information about the shipment of any material, including but not limited to oil or oil mixed with any other material, directly or indirectly to the Site.
14. Identify (as defined in Enclosure 4) all persons who have knowledge or information about the shipment of any material containing or potentially containing polychlorinated biphenyls (PCBs) directly or indirectly to the Site.
15. Describe where you sent oil or oil mixed with any other material between 1979 and 1982. For each location, describe how much of each material you generated, transported, or arranged to be transported to the location and the dates of each shipment. In addition, for oil or oil-water mixtures sent directly or indirectly to the Site, identify (as defined in Enclosure 4) the information requested in paragraphs 7 a-p listed above.
16. Describe where you sent material containing or potentially containing PCBs between 1979 and 1982. For each location, describe how much of each material you generated, transported, or arranged to be transported to the location and the dates of each shipment. In addition, for material containing PCBs sent directly or indirectly to the Site, identify (as defined in Enclosure 4) the information requested in paragraphs 7 a-p listed above.
17. Identify (as defined in Enclosure 4) all persons who have knowledge or information about any material delivered to or any other transactions involving Jerry Russell Bliss; Jerry Russell Bliss, Inc.; or any other business that was associated with Jerry Russell Bliss.
18. Identify (as defined in Enclosure 4) all documents containing information on any transactions either directly

or indirectly involving Jerry Russell Bliss; Jerry Russell Bliss, Inc.; or any other business that was associated with Jerry Russell Bliss.

### ENCLOSURE 3

#### INSTRUCTIONS

1. Answer each of the questions in this Information Request separately.
2. Precede each answer with the number of the question to which it corresponds.
3. In answering each question, identify all persons and contributing sources of information.
4. Although the U.S. EPA seeks your cooperation in this investigation, CERCLA requires that you respond fully and truthfully to this Information Request. False, fictitious, or fraudulent statements or misrepresentations may subject you to civil or criminal penalties under federal law. Section 104 of CERCLA, 42 U.S.C. § 9604, authorizes the U.S. EPA to pursue penalties for failure to comply with that Section, or for failure to respond adequately to requests for submissions of required information.
5. In answering each question, identify all persons and contributing sources of information.
6. You must supplement your response to U.S. EPA if, after submission of your response, additional information should later become known or available. Should you find at any time after the submission of your response that any portion of the submitted information is false or misrepresents the truth, you must notify U.S. EPA as soon as possible.
7. For any document submitted in response to a question, indicate the number of the question to which it responds.
8. You must respond to each question based upon all information and documents in your possession or control, or in the possession or control of your current or former employees, agents, contractors, or attorneys. Information must be furnished regardless of whether or not it is based on your personal knowledge, and regardless of source.
9. Your response must be accompanied by the following statement, or one that is substantially equivalent:

I certify under a penalty of law that this document and all Enclosures were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted.

Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

The individual who prepared the response or the responsible corporate official acting on behalf of the corporation must sign and date the statement, affidavit, or certification. Include the corporate official's full title.

10. If any of the requested documents have been transferred to others or have otherwise been disposed of, identify each document, the person to whom it was transferred, describe the circumstances surrounding the transfer or disposition, and state the date of the transfer or disposition.
11. All requested information must be provided notwithstanding its possible characterization as confidential information or trade secrets. If desired, you may assert a business confidentiality claim by means of the procedures described in Enclosure 5.

## Enclosure 4

### DEFINITIONS

1. As used in this letter, words in the singular also include the plural and words in the masculine gender also include the feminine and vice versa.
2. The term *person* as used herein includes, in the plural as well as the singular, any natural person, firm, contractor, unincorporated association, partnership, corporation, trust or governmental entity, unless the context indicates otherwise.
3. *The Site* referenced in these documents shall mean the Ilada Waste Company located in Dupon, Illinois.
4. The term *hazardous substance* shall have the same definition as that contained in Section 101(14) of CERCLA, including any mixtures of such hazardous substances with any other substances, including petroleum products.
5. The term, *pollutant* or *contaminant*, shall have the same definition as that contained in Section 101(33) of CERCLA, and includes any mixtures of such pollutants and contaminants with any other substances.
6. The term *release* shall have the same definition as that contained in Section 101(22) of CERCLA, and means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous substance, pollutant, or contaminant.
7. The term *identify* means, with respect to a natural person, to set forth the person's full name, present or last known business address and business telephone number, present or last known home address and home telephone number, and present or last known job title, position or business.
8. The term *identify* means, with respect to a corporation, partnership, businesses' trust or other association or

business entity (including a sole proprietorship), to set forth its full name, address, legal form (e.g., corporation, partnership, etc.), organization, if any, and a brief description of its business.

9. The term *identify* means, with respect to a document, to provide its customary business description, its date, its number, if any (invoice or purchase order number), the identity of the author, addressor, addressee and/or recipient, and the substance or the subject matter.
10. All terms not defined herein will have their ordinary meaning, unless such terms are defined in CERCLA, RCRA, 40 C.F.R., Part 300 or 40 C.F.R., Part 260-280, in which case, the statutory or regulatory definitions will apply.

## Enclosure 5

### CONFIDENTIAL BUSINESS INFORMATION

You may consider some of the information confidential that the U.S. Environmental Protection Agency (U.S. EPA or Agency) is requesting. You cannot withhold information or records upon that basis. The Regulations at 40 C.F.R. Part 2, Section 200 *et seq* require that the U.S. EPA affords you the opportunity to substantiate your claim of confidentiality before the Agency makes a final determination on the confidentiality of the information.

You may assert a business confidentiality claim covering part or all of the information requested, in the manner described by 40 C.F.R. 2.203(b). Information covered by such a claim will be disclosed by the U.S. EPA only to the extent and only by means of the procedures set forth in 40 C.F.R. Part 2, Subpart B. (See 41 Federal Register 36902 *et seq.* (September 1, 1976); 43 Federal Register 4000 *et seq.* (December 18, 1985).) If no such claim accompanies the information when the U.S. EPA receives it, the information may be made available to the public by the Agency without further notice to you. Please read carefully these cited regulations, together with the standards set forth in Section 104(e)(7) of Comprehensive Environmental Response Compensation Liability Act (CERCA), because, as stated in Section 104(e)(7)(ii), certain categories of information are not properly the subject of a claim of confidential business information.

If you wish the U.S. EPA to treat the information or record as "confidential", you must advise the U.S. EPA of that fact by following the procedures described below, including the requirement for supporting your claim of confidentiality. To assert a claim of confidentiality, you must specify which portions of the information or documents you consider confidential. Please identify the information or document that you consider confidential by page, paragraph, and sentence. You must make a separate assertion of confidentiality for each response and each document that you consider confidential. Submit the portion of the response that you consider confidential in a separate, sealed envelope. Mark the envelope "confidential," and identify the number of the question to which it is the response.

For each assertion of confidentiality, identify:

1. The period of time for which you request that the Agency consider the information confidential, e.g., until a specific date or until the occurrence of a specific event;
2. The measures that you have taken to guard against disclosure of the information to others;
3. The extent to which the information has already been disclosed to others and the precautions that you have taken to ensure that no further disclosure occurs;
4. Whether the U.S. EPA or other federal agency has made pertinent determination on the confidentiality of the information or document. If an agency has made such a determination, enclose a copy of that determination;
5. Whether disclosure of the information or document would be likely to result in substantial harmful effects to your competitive position. If you believe such harm would result from any disclosure, explain the nature of the harmful effects, why the harm should be viewed as substantial, and the causal relationship between disclosure and the harmful effect. Include a description of how a competitor would use the information;
6. Whether you assert that the information is voluntarily submitted as defined by 40 C.F.R. 2.201(I). If you make this assertion, explain how the disclosure would tend to lessen the ability of the U.S. EPA to obtain similar information in the future;
7. Any other information that you deem relevant to a determination of confidentiality.

Please note that pursuant to 40 C.F.R. 2.208(e), the burden of substantiating confidentiality rests with you. The U.S. EPA will give little or no weight to conclusory allegations. If you believe that facts and documents necessary to substantiate confidentiality are themselves confidential, please identify them as such so that the U.S. EPA may maintain their confidentiality

pursuant to 40 C.F.R. 2.205(c). If you do not identify this information and documents as "confidential," your comments will be available to the public without further notice to you.

## ENCLOSURE 6

### DESCRIPTION OF LEGAL AUTHORITY

The Federal Superfund law (the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. Section 9601, et seq. (commonly referred to as CERCLA or Superfund) gives U.S. EPA the authority to, among other things: 1) assess contaminated sites, 2) determine the threats to human health and the environment posed by each site, and, 3) clean up those sites.

Under Section 104(e)(2) of CERCLA, 42 U.S.C. §9604 (e)(2), U.S. EPA has broad information gathering authority which allows U.S. EPA to require persons to furnish information or documents relating to:

- A. The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility, or transported to a vessel or facility;
- B. The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at/or from a vessel or facility;
- C. The ability to pay the costs of the clean-up.

Compliance with this Information Request is mandatory. Failure to respond fully and truthfully to each question within this Information Request and within the prescribed time frame can result in an enforcement action by U.S. EPA pursuant to Section 104(e)(5) of CERCLA. This Section also authorizes an enforcement action with similar penalties if the recipient of the Request does not respond and does not justify the failure to respond. Other statutory provisions (18 U.S.C. §1001) authorize separate penalties if the responses contain false, fictitious or fraudulent statements. The U.S. EPA has the authority to use the information requested in this Information Request in an administrative, civil or criminal action.
